Relaxing and Family Atmosphere

VAULTING ON HORSEBACK

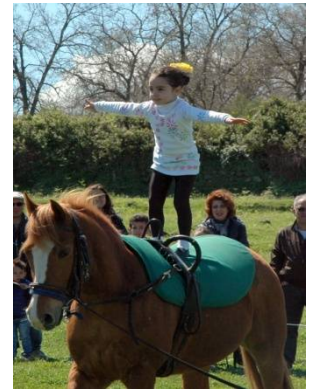

Vaulting is an artistic gymnastics on horseback. The horse moves in a circle and he is directed by a lunger or longer, at walk, or trot or canter.

vaulting can be performed from the age of three.

For children vaulting is an excellent way to develop coordination, agility, balance courage and confidence in themselves.

Vaulting gives children basic horse handling skills for horseback riding.

Horse Riding

At our Center we teach basic riding rules such as saddling, feeding and looking after the horse. Few lessons in the arena will introduce beginners to equestrian sports and to trail rides on the Etna.

As our Center is just in the middle of Etna Park, “U.N.E.S.C.O. heritage”, you can relax on horseback, enjoying the nature, such as woods, beautiful sky, and lava stones surrounding the Etna volcano. Riding all the year long, you can enjoy unforgettable and unique landscapes, even when covered with snow.

Children, Adults and Families are welcome for wild trail Rides.

Relax and Fun

According to our Center’s Equestrian Activities, Picnic, BBQ, Birthday’s Party, Open/farm day and Seasons Events, can be held on demand, for our Club Members, for their Families, for their Friends.

You can also visit our **“little farm”** with donkeys, sheep and chickens, as well as our **“handcraft wooden and lava stones laboratory”**
